Profile

Software Engineer experienced in designing, building, and deploying production-grade full-stack applications, Android solutions, cloud infrastructure, and AI systems. Delivered scalable software for international digital campaigns and independently developed client applications alongside research in medical AI and computer vision.

Core Technologies

Languages	Python, Java, Kotlin, JavaScript, TypeScript, SQL
Frontend	React, Next.js, Tailwind CSS, HTML, CSS
Backend	Node.js, Express.js, PostgreSQL, Prisma ORM, REST APIs
Mobile	Android SDK, Jetpack Compose, Room Database
Machine Learning / AI	PyTorch, OpenCV, Computer Vision, Deep Learning, timm, Grad-CAM
Cloud & DevOps	AWS (EC2, S3), Docker, Cloudflare, DigitalOcean, Railway, Git, Linux
Tools	GitHub, Android Studio, VS Code, Postman

Professional Experience

Founder & Software Engineer Nov 2022 – Present
KridAstra • Full Time Hybrid • India

Tech Stack: Java • Kotlin • Android • Jetpack Compose • React • Next.js
Node.js • Express.js • TypeScript • PostgreSQL • Docker

- Delivering end-to-end digital solutions for businesses while managing client engagements, technical execution, and project delivery.

Full Stack Software Engineer Sept 2023 – Present
Moonglade Communication • Contract Remote • India

Tech Stack: TypeScript • React • Next.js • Node.js • Express.js • PostgreSQL
AWS (EC2, S3) • Docker • Cloudflare • DigitalOcean

Domain: Marketing Technology (MarTech), Digital Campaigns, Consumer Engagement

- Engineered scalable campaign platforms and consumer engagement systems for global brands, contributing to digital campaigns that supported over **20 million consumer interactions**.

AI Research Engineer Feb 2026 – July 2026
Independent Healthcare • Full Time Remote • Germany

Tech Stack: Python • PyTorch • OpenCV • NumPy • Pandas • timm • Grad-CAM

- Developing deep learning solutions for automated diagnosis of pediatric hip disorders using medical imaging, with a focus on computer vision, explainable AI, and clinical decision support.

Full Stack Developer
Digital Turbine • Freelance

Sept 2023 – Nov 2023

Remote • India

Tech Stack: Angular • PHP • Laravel • MySQL • AWS

- Contributed to the development of a production web application by building responsive user interfaces and implementing application features using Angular, Laravel, and PHP within a collaborative engineering team.

Education

Bachelor of Science (Honours) in Physics
Babasaheb Bhimrao Ambedkar Bihar University

2019 - 2022

Muzaffarpur, Bihar

Projects

Campaign Management System

Tech Stack: React • Next.js • Node.js • PostgreSQL • AWS • Docker

- Designed and developed an internal campaign management system to configure, deploy, and manage multiple digital marketing campaigns.

Scan & Play

Tech Stack: TypeScript • React • Next.js • Node.js • PostgreSQL • AWS

- Developed an interactive *Scan & Play* football campaign platform, optimized for large stadium displays and real-time consumer engagement.

AI-based DDH Detection

Tech Stack: Python • PyTorch • OpenCV • timm • Grad-CAM

- Developed an end-to-end deep learning pipeline for pediatric hip dysplasia detection from pelvic X-rays, incorporating automated proxy-label generation, medical image preprocessing, and explainable AI techniques including Grad-CAM for model interpretation.

Consumer Survey Platform

Tech Stack: TypeScript • React • Node.js • Express.js • PostgreSQL

- Engineered a scalable digital consumer survey platform to streamline campaign participation and data collection.
